Do you have experience working with gifted individuals? Do you typically work with children, teens, adults, and/or families?

Yes. I work with gifted and 2e children, teens, adults, couples and families.

Do you have a specialty or preferred area of expertise? Do you have additional certifications or training that may be of interest to families with gifted children?

My specialty is 2e kids. My practice is often full for ongoing counseling, but consultation appointments are available, as well as our online learning community.

Have you worked with twice-exceptional children/teens and their families? Briefly state how your understanding of the needs of gifted/2e individuals and families inform your approach? Please list any professional organizations in which you are affiliated.

Yes. 2e kids are very unique in that they have a mixture of advanced abilities and lagging skills. My goal is to help ease the struggle and help 2e kids create beautiful lives that fit the unique way their brains are wired. I give talks for many schools and organizations including Seng, the Bright & Quirky Child Online summit and the Bright & Quirky IdeaLab, which include 2e parents from all over the world.

About NWGCA

The Northwest Gifted Child Association (NWGCA) is a support and advocacy organization for parents of gifted children. Organized in 1963, NWGCA provides support and information to parents of gifted children. It continues to help parents enhance and hone their parenting skills and gives them tools to speak out for an appropriate gifted education and deal with this learning difference we call giftedness. NWGCA works with individual families, talking with them by phone and through emails, providing appropriate referrals and resources through our website. Thank you for completing this application form and for supporting the gifted and talented families of Washington State. Please email completed form to providers@nwgca.org.
