Do you have experience working with gifted individuals? Do you typically work with children, teens, adults, and/or families?

I have many years' experience working with gifted children and adolescents and 2e children. I do see some adults, but primarily work with children and families.

Do you have a specialty or preferred area of expertise? Do you have additional certifications or training that may be of interest to families with gifted children?

My expertise is in autism spectrum disorders and 2e children (i.e., gifted and needs supports at school due to ADHD, learning disorders, etc.).

Have you worked with twice-exceptional children/teens and their families?

Yes – see previous answers.

Briefly state how your understanding of the needs of gifted/2e individuals and families inform your approach?

Public schools often find it difficult to both challenge a student in areas of giftedness and provide needed supports. My approach is to educate those who will be working with the gifted/2e student so that the students' needs are met.

Please list any professional organizations in which you are affiliated.

About NWGCA

The Northwest Gifted Child Association (NWGCA) is a support and advocacy organization for parents of gifted children. Organized in 1963, NWGCA provides support and information to parents of gifted children. It continues to help parents enhance and hone their parenting skills and gives them tools to speak out for an appropriate gifted education and deal with this learning difference we call giftedness. NWGCA works with individual families, talking with them by phone and through emails, providing appropriate referrals and resources through our website. Thank you for completing this application form and for supporting the gifted and talented families of Washington State. Please email completed form to providers@nwgca.org.
